## Backgammon Blitz Patch

Download >>> <http://bit.ly/2NCE6F9>

## About This Game

### Backgammon's back... with a bang!

Loved by millions, played for centuries, backgammon is a two-player strategy game quite unlike any other. The goal is simple: race to get your checkers off the board first. The deceptively deep rules and rhythm of backgammon has secured it as a favorite among casual and veteran players alike.

Whether in single, local, online, multiplayer or blasting through the madness of Blitz mode: one taste and you'll be hooked.

Rendered in a gorgeous style - harnessing cutting-edge technology - this version of backgammon isn't merely a faithful adaptation of the game it's a world you want to reach out and touch, a place and atmosphere you want to relax in.

Graduate from pupil to master, or veteran to.... show-off!

### Features:

- Authentic, immersive Backgammon game play
  - Stunning HD photo realistic visuals
  - Challenge your friends locally and online
- Pair-up with opponents in real-time with Quick Play

interesting game, but not suitable for players that are seeking excitement.. This is an excellent game if you are interested in Backgammon but you don't have previous experience.

It has a good tutorial, good gameplay and nice graphics.. This game looked amazing from the trailer and images, too bad you won't be playing it online anytime soon.. Great game. Easy to set-up an online match with friends. Those online games are saved so you can quit and come back to that game as much as necessary.

My only complaint is that there is no way to confirm the move you want/take it back if you mess up. I understand the idea of think before you play, however, when you're playing casually with a friend and you miscount a move it would be nice to be able to take it back before passing the turn.

. nobody on the servers to play.....if you play with another friend after i game, will frozen. 4 euro for nothing!!!! IT'S A CRAP!!!!. Do I recommend this game? I do because I find that it delivers a accurate representation of Backgammon. There are somethings I would like to go over though. First there is not a lot of setting to pick from there is not a lot of audio and graphic options as well. There is a how to play sections which I find cool for anyone who has never played Backgammon before. the UI is limited though but easy to use. There is a online which I have not been able to try as I cannot connect to anything. I cant do a full on proper review that I would have liked to do with this as there is not a lot to cover apart from what I have said, I will update this if I find out something new or something gets added. But I have to say this is one of the most polished and greatly made, virtual backgammon games I have played.

Verdict:

85/100

Summary: As its a great game there is some stuff that needs to be changed. Like the UI and the settings. They also need to add some more designs to the board and let us be able to customise the board ourselves. but other then that its good.. Crashiola game. Four times, never finished a single game.

---

Really enjoying this game, great graphics and nice atmosphere within the game. Would definitely recommend for those who have never played backgammon before. Worth getting this to learn and master the physical board game. Great buy.. I've played almost two hours and was able to match with another player just ONCE. The game appears polished but it utterly fails in multiplayer execution.. Not bad ... i like it. I bought this game about 2 weeks ago and have not been able to play online yet. All I get when I try to play online is a server error message. After trying to contact VooFoo studios by email twice, I have still received no reply. While waiting to see if the server error would come good, I played against the computer. Big mistake! because I played against the A.I for more than the Steam allowable time, I was unable to claim a refund. This is pretty unfair as I only bought the game to be able to play online, against other people, not against the machine. I would not recommend this game to anyone who wants to play online, or wants any kind of back up when a problem occurs, or wants to be treated fairly.. Unfortunately this is not very good. Firstly I found it difficult to find people to play online. Secondly, after finding someone to play the game constantly errors with 'game slot already in use'. This error is across multiple machines and therefore I cannot play online. Support have been absolutely awful. Playing the computer even on the hardest setting isn't much of a challenge as the AI (if you can call it that) is pretty stupid. It also crashes if I try to 'undo' a move. All in all this is about as bad as it gets.. It is a really good game, and it has beautiful graphics... I only wish that there was the option to remove the highlights of the movements, since in other games it is possible to do that and I would like that it can be deactivated. Thanks.... Really enjoying this game, great graphics and nice atmosphere within the game. Would definitely recommend for those who have never played backgammon before. Worth getting this to learn and master the physical board game. Great buy.. Nice backgammon game.. I've not tried the game online yet. And at first I got an error message but I am now able to enter the multiplayer lobby, which is promising.

But i'm mostly basing the review on the single player experience. It has nice graphics, a lot of options. There is an undo feature now. Different boards. An excellent tutorial. I didn't actually know how to play backgammon but in less than an hour I knew how to play due to it's great tutorial and friendly interface that works very well with a controller or mouse.

There is also a hotseat mode so all in all i'm very happy with this and if the online works for me i'll be upping this review from good, to excellent.

I did have some problems running at full screen which i was able to fix by the way. I use windows 10, and setting the launcher and game.exe files to windows7 compatibility fixed that problem.  
. Nice game to learn backgammon in if you've never played it.
