WARNING DO NOT PLAY WITH A HTC VIVE UNLESS YOU WANT TO FEEL NAUSEA AND HAVE A HEADACHE FOR 2 DAYS!!!!!! Works fluid with an Oculus.. The gameplay is too slow and too easy, but i like the enviornment.. One of the more immersive experiences I have had with the rift. My pc barely meets the oculus rift minimum requirements but this game runs very smooth with no stutter at all. For the price especially I highly recommend this game.. I played this for 10 minutes before it said 'Play again?' Am I right assuming the game is only 10 minutes long? Racing along a 3d tube is pretty uninspiring, unoriginal and very nauseating. I bought this on the back of playing the free demo 'In Mind' which was reasonable, but this is

pretty bad. The voice over is terribly cheesy and not necessary too. I expected much more for the price.. Amazing visuals and fun gameplay, even without VR-device =>. Was a real trippy experience. Pretty fun stuff! Can sit in chair and just tilt head from side to side and go for a ride. Very nice game for VR noobies to get a taste of the possibilities. Will be sweet for partys.. Works fluid with an Oculus.
