About This Game

Super Man Or Monster is a monsterfilled, explosive, third person action game with a delightful 8-bit style. You choose if you want to fight with MAN to protect the world, or be a MONSTER and destroy it!

Super Man Or Monster?!

Man - Build your army, fly around with your jetpack and blast monsters. Anything you deploy you can pilot yourself, from turrets and tanks to helicopters! Kick ass. Monster - Bash, stomp and wreck cities with brute force and special powers like fireballs and body slams. Bring the chaos!

What's so super about it?

We're taking the classic Man Or Monster (a simple voxel browser game) to the next level by adding all stuff we didn't have time for back then. We've added controller support, full screen retro visuals, lots of new content and a splitscreen local multiplayer mode that's pretty awesome if we do say so ourselves (we do)!

Features

- Play as Man or as Monster. Two very different experiences for the price of one!
- Explore more than 30 of the world's biggest cities in glorious cubestyle.

-
- Splitscreen local multiplayer game mode: Man versus Monster.
 - Unlock tons of units, monsters, special attacks and trophies.
 - 8-bit look now in three dimensions.
 - Super catchy retro chiptunes!
 - A jetpack and fart-attacks. Need I say more?

THE ONLY THING THAT PREVENTS THIS FROM BEING A PERFECT 10/10 GAME IS THE LACK OF THE MONSTERS BEING ABLE TO USE ALL OF EACHOTHERS ATTACKS needs update for that AND the human has one non unlockable weapon under the screen of tanks and stuff and i somehow wound up with 31 man coins but PLEASE GIVE THE MONSTERS AS FREE USE OF ALL OF THEIR WEAPONS AS THE VERY OP MAN! some things extremely challenging especially the time bonuses on missions! All of the monsters need the fart attack like in the original Man Or Monster LOL. but in every other way great job :) !!!

P.S.If they all farted with the original Man Or Monster animations when they use the Fart Attack it would make my day. update needed.. You can't run this game in a 4K resolution (3840 X 2160 or 4096 X 2160)! This game is great, but there is no excuse for not supporting a resolution over 720P!. Great game, it's definantly the best kaiju game out there, without even being a licensed godzilla product, it catures every essential feature oe should have. The game it captures it all perfectly how fun smashing or defending cities should be.

The gameplay is fun for both campaigns and i can see myself running through the game multiple times just for fun.

The developers are open and accept reasonable criticism and are well deserving of support. This game deserves a great deal of love and attention in order to allow these brilliant guys to carry on with further projects and titles, be they using this IP or another. Worth the price and worth the time Visually stunning, designs are unique and iconic in their own way without feeling stale. Designs of everything suits the game perfectly and are aesthetically pleasing.. AWESOME GAME. Great monstrous game!. Fun concept, hilarious game. I thoroughly enjoyed setting up my turrets and tanks while waiting for the monster to show up. Will definitely play more.

VERY NICE GAME! MY KID AND I LIKED IT VERY MUCH! please allow multiple type of units for the MAN to initially deploy in splitscreen and Increase the number. Looking forward for more improvements! Thanks for this cool game =). pretty good game. really good game thats worth it and maybe be a hidden gem 10/10. pretty good game. Really fun game in which you can either save the town or choose to destroy it, depending on your character choice. Hence the name, 'Super Man Or Monster' which is fitting to say the least, given the old school look and feel of the game. Not sure if I would have paid \$12 for it, happily atleast. To be fair that is mostly due to the fact that I got it for half off when it was on sale.. If you wanted to get SUPER MAN OR MONSTER, but were short on cash the last few weeks, NOW is the time to get it. Seriously, this is such a good deal, you'd be a fool not to get it.

. Splitscreen Gameplay:

Check out the video here: <https://youtu.be/f3N7-n7YLOU>. **Splitscreen Feedback wanted!:**

As you might know the splitscreen mode of the game still has some balancing issues. If you are unlucky as Man, the Monster can kill you in a single attack. Or, Man can be in luck with the weapon pickups he gets, or deploy units that are impossible for you to destroy as a Monster.

We've had lots of good feedback already! But we need more!

Do you have ideas on the following:

-
- * Order of the unlocking of units and monsters
 - * Which units and special attacks are available
 - * The rules of the game mode
 - * How the menu screens work etc.

All your feedback and suggestions are more than welcome on the... ['Feedback and Suggestions'](#) section of the forum!

Thanks a lot for your ideas!
